OC-MLS WEEKLY STAFF NOTES  
FOR WEEK OF 18-22 JUNE 1984

25X1

[Redacted]

2. Personal services funds in the amount of \$310K have been received from the DDA to meet anticipated shortfalls. Various personal services sub-object classes have been realigned to eliminate deficits.

3. Copies of the Capitalization Program status report are being distributed within OC to the group level--with the recommendation that the report be given wide circulation to all interested parties.

OC-MLS Weekly Staff Notes, 18-22 June 1984

meeting with the naval officer charged with alerting users of frequency changes during the Navy's tests and representatives of the key operational areas: OC/SAG and OTS/Electronic Operations Division.

25X1

8. The IMS FY-85 budget contains five positions for OC support to CRAFT. On the assumption that these positions will make it through Congressional review, each OC Division has been asked to provide titles and grade levels of additional positions needed to support CRAFT. If identified requirements exceed available positions, the new positions will be allocated on the basis of most critical need.

25X1

9. IMS has given OC authorization to expend \$20,000 for OC travel in support of the [ ] Field Automation Project. This is in addition to the \$100,000 which OC has been authorized to spend for CRAFT travel. Although both projects are managed by IMS, they are funded separately.
